IN

ride sharing in Europe 2003

2003 ● 2023

Ride-sharing, as we understand it today with platforms like Uber and Lyft, didn't exist in Europe in 2003.

...

In Europe, traditional taxi services were the primary means of hired transportation in 2003.

IN

Was there any AI in European freight transport in 2003?

While some rudimentary forms of automation and optimization existed in the logistics and transportation sectors, the sophisticated AI systems we think of today were not widespread.
