

## ECTRI in a nutshell

The European Conference of Transport Research Institutes (ECTRI) is an international non-profit association, founded in 2003. It is the first attempt to unite the forces of the foremost multimodal transport research organisations across Europe and to thereby promote the excellence of European transport research. Today, it includes 30 major transport research institutes or universities from 21 European countries. Together, they account for more than 3,800 researchers in the field of transport and mobility.

## Vision

Be the leading European research association for sustainable and multimodal mobility.

## Mission

ECTRI promotes green, safe, efficient, and inclusive transport for people and goods by:

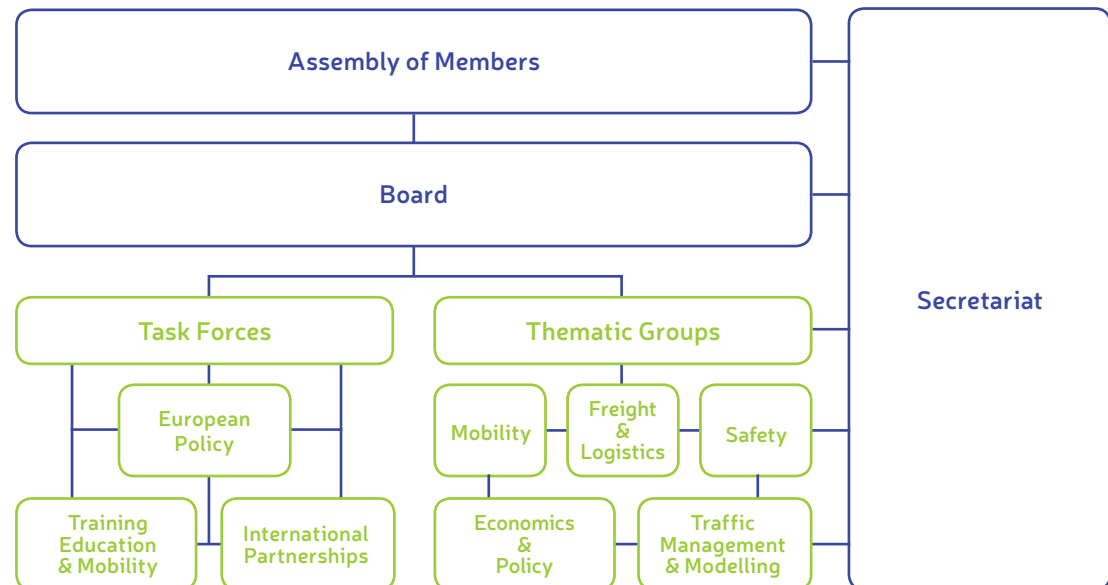

- Facilitating the representation and cooperation of its Members
- Providing independent, evidence based advice to decision makers in Europe
- Promoting mobility research and enhancing its scientific quality and effectiveness

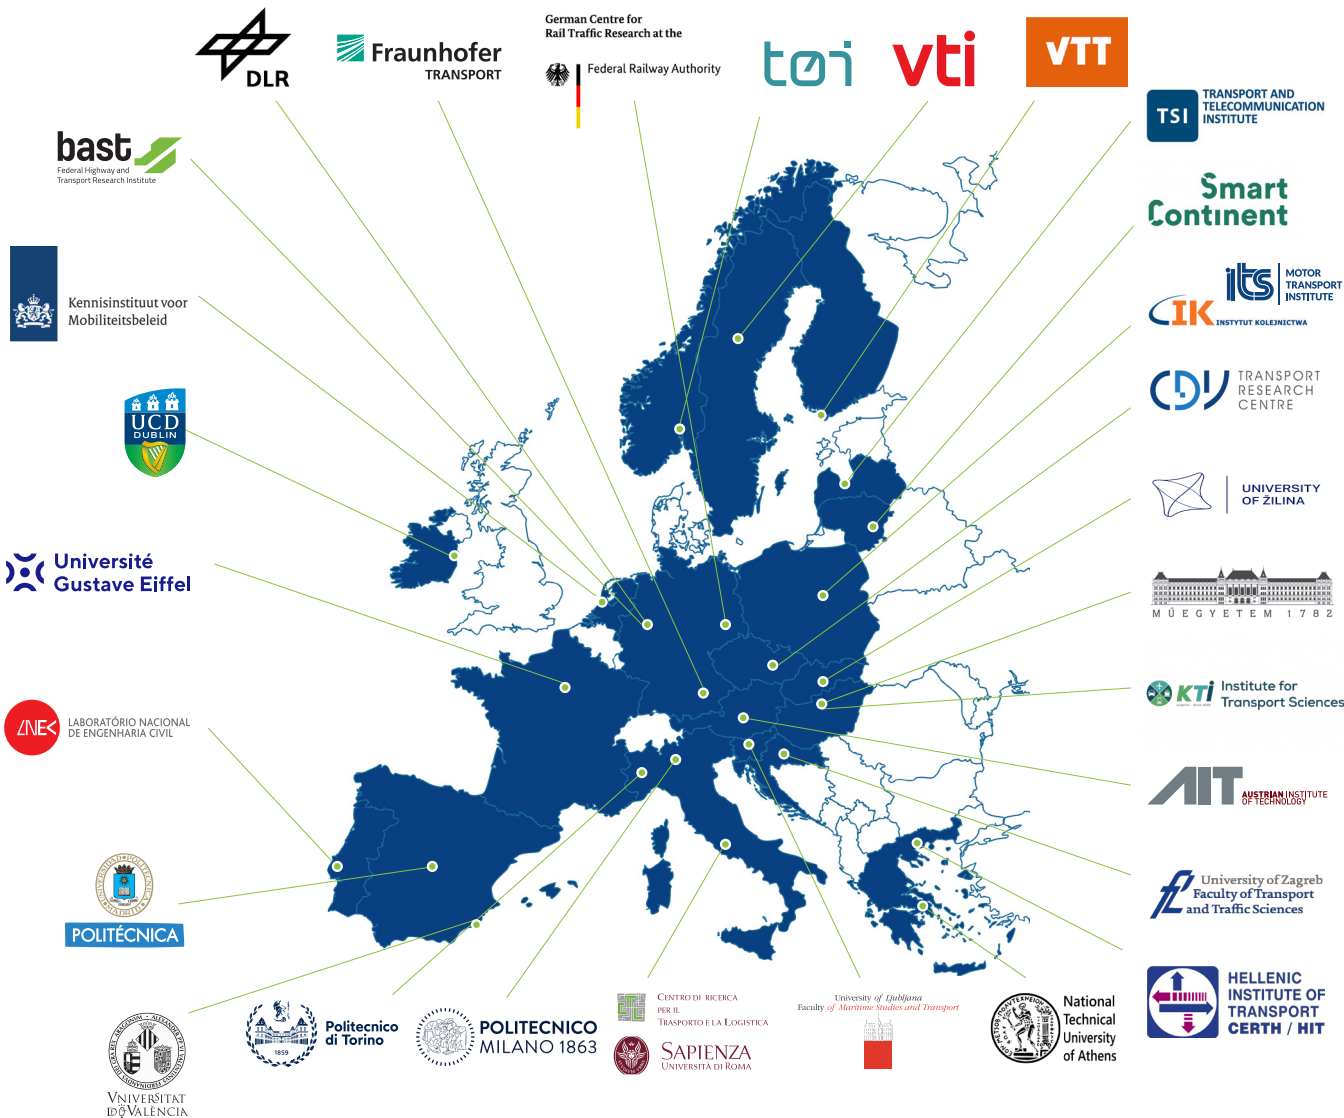

## Strategic objectives

ECTRI's vision and mission are implemented through six strategic objectives:

- Offer added-value services to its Members
- Support participation in R&D projects
- Shape European programmes and policies
- Provide expert advice
- Engage in European and International dialogues
- Disseminate research work

## Organisational Structure

## Membership

ECTRI Members are research establishment or entity with head offices in Europe and full legal personality as established in the respective European country. Such establishment or entity shall (i) be tasked with activities of public interest in the field of transport and mobility research, (ii) conduct considerable research activities in transport and mobility, and (iii) be well recognized in its field in its country.
